

Political Pinata

Those in the "Ruling Class" are found within the ranks of the Left, the Right, and Special Interests. They have no desire for the game of Political Pinata to end. They pretend to challenge each other on behalf of Americans; however, the true focus of their efforts is to position themselves directly under the pinata each time that the money falls. Our part in the game? We continually fill the pinata while playing by the rules—rules designed to keep the Ruling Class's strings attached to our money. **THE TIME HAS COME TO CHANGE THE GAME!**
